

# Model Course Information【South】

Title	Sustainable tour in Minami Awa Explore Ishima and Tebajima Island, Visit the Sea Turtle's home at Oohama Beach
Municipalities included in model course	Anan City・Minami Town・Mugi Town
Concept Facility Overview Experience	A sustainable tour that includes elements of the SDGs (environment, traditional culture, and livelihood) in the experience content, set in the Muroto Anan Kaigan Quasi-National Park, where an unspoiled natural environment remains. Time for work is integrated into learning and conservation content as course participants touch on the charms and challenges of nature, traditions, and local resources in Anan City, Minami Town, and Mugi Town. In Ishima, participants will enjoy seafood and local cuisine, Amakusa agar agar making, and fishing. On Ohama Beach, learn about the environment and conservation of a sea turtle nesting site.
Number of participants	Single participant : No Minimum No. of participants : Negotiable
Transportation to the site	Meet at the site(rental car, etc.)
Points to note when applying	Dates and fees will depend on the itinerary and arrangements. Please confirm after your application details are set. Program content is subject to change depending on the time of year and other factors. We appreciate your understanding in advance.
